

When you'll be drinking. . .

PLAN AHEAD. . .

USE A DESIGNATED DRIVER

RESEARCH SAYS PEOPLE DRIVE IMPAIRED BETWEEN 200 AND 2000 TIMES BEFORE THEY HAVE A TRAFFIC INCIDENT OR GET ARRESTED.

THAT'S ON AVERAGE. FOR OTHERS, IT ONLY TAKES ONCE.

ARE YOU READY TO SPIN THE WHEEL ON YOUR ODDS?

The Designated Driver:

- doesn't drink any alcoholic beverages at all during the evening
- gives a safe ride home to all friends in the group
- is not under 21. The designated driver idea was developed for adults.

When you use a Designated Driver:

- everyone gets home safely
- there is no question of anyone driving under the influence
- no embarrassing field sobriety tests
- no visits to the Detention Center
- no unflattering booking photos or fingerprinting
- no fines
- no alcohol classes
- no action on your driver's license
- insurance rates stay low

Don't have a designated driver?

- Be one yourself. Stay sober.
- Call a cab BEFORE you go out. It's hard to get a taxi at 2AM.
